#### Checkpoint 4 Sprint D 16-12-2021

Overall good contribution this sprint.

We underestimated how difficult a couple of tasks when planning and because of that we didnt manage to finish everything, but I think, other than that, everything went pretty smoothly and Stanislav di... [Read more](#)

Worked really hard and up until late at night to finish his parts of the project. Managed the project.

Does great work and controls the sprint meetings most of the time.

Helped people a lot, overall has a big impact on meeting and presentations.

#### Checkpoint 3 Sprint C 02-12-2021

Good contribution, but there was time for more.

Leads the group discussions well.

Did everything he had assigned to him.

Gave a lot of input during meetings and also in the work, also helped me where others were supposed to.

Did a lot of work this sprint and helped others finish their work too.

**Checkpoint 2** **Sprint B** 05-11-2021 

  I worked mainly on the back-end this sprint and also contributed to the documentation part. In my opinion, I could have done more for the time we had available. Should focus more on time management.

  Very helpful, does a lot of work and usually steers the group meeting discussions well.

  takes a more leadership role during the meetings which really helps the project go towards something

  Big part of the new splitting and trip storing algorithm. I think he works well with the team and is usually pretty open to ideas

  Did a lot to motivate us to work on this sprint. Works quite fast as well.

**Checkpoint 1** **Sprint A** 03-10-2021 

  During the first sprint of the project I worked both on the front-end and back-end of the project. All of the front-end logic, the rest api and the user logic in the back-end was implemented by me, so... [Read more](#)

  Does a lot of work and very communicative

  Did a lot of work on the front end, could communicate a little more but delivery wise really good

  Didn't communicate too much but worked hard

  No complaints. Does everything you ask him, does it quickly as well.
